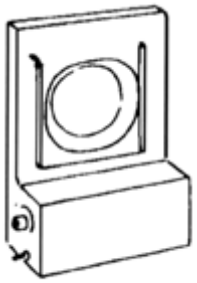
Notes:



ESM Spiral Machine

1. Scene Machines – please use the attachment to the right, and the OL-8 lenses. I will bring the patterns for them when I come to Columbus. The fans need to be connected together and placed on a switch which the light board operator can turn on and off, they can be plugged into a regular wall outlet and not through the dimming system.

2. Most of the patterns for the fixtures I will choose from stock when I come into Columbus on May 8th. Any patterns listed in the paperwork (12 – GAM697) are specific patterns that I need and should be ordered.

3. 12" Fresnel in Trap room placement TBD when I arrive. Please provide the 4 circuits and roving stands for focus.

4. If there are not enough side arms, the fixtures on the onstage booms (not torms) and the #2 Slot both SL and SR can be hung directly off the pipe or boom.

5. Final boom location will be determined during focus, please provide ample cable to move booms if necessary.

6. Mary has said that the CD80 rack is there for you to use if necessary, it might be good to use for the booms SL, just a suggestion.

7. Let me know ASAP about how many sheets of color you are going to need to order, I may be able to find some substitutes for some if the colors. I would like it if we could get the color ordered by the end of the day on Monday.

8. I don't know if you got my e-mail but I plan to use the color strings from Uncommon Clay. If you have not already ordered them, you can put them on the color order for Monday.

9. Channel numbers for the color scrollers and twin spins are listed in the paperwork, please address accordingly.

10. 6" Fresnels and 6x9 Century (New Type) are taken from the Studio Theatre inventory. Mary has approved of the inventory change.

11. Sky Cycs are taken from the Bowen Theatre inventory. Mary has approved of the inventory change.

12. If ABSOLUTLY NECESSARY you can combine channels:

141 and 142	143 and 144
145 and 146	147 and 148
156 and 157	159 and 160

We can discuss others if necessary.

13. Don't be afraid to call if you have any questions, if I don't answer leave a message and I'll call you back. I'd rather you call then have to fix it later!

14. See you in about a week and a half!

Thank you,

Kristopher D. Jones
